MEMORANDUM FOR: Director of Central Intelligence

FROM : SA/IA

SUBJECT : Breakfast Meeting with Secretary Haig, 16 February 1982

1. Because you and Secretary Haig have not had a chance to chat for ten days or so, a lot of little things have come up which would be worthwhile addressing at your breakfast Tuesday morning. It is a fairly full platter, but I think they are all worth your consideration.

2. I have asked that Secretary Haig give you a rundown on his trip to the Middle East, including his stop in Madrid where he pelted the Poles and Soviets. I have included the following items to enhance your discussion of his trip.

--

in a separate packet). You may also wish to inform the Secretary about the SNIE which we have in train on Poland as well as to discuss the results of last week's NSC meeting and the subsequent SIG meetings [redacted] h

25X1

[redacted] It appears that Haig has been kept up to date on the proceedings in view of the fact that he has named James Buckley to head the high-level mission to Europe.

3. Secretary Haig would like very much to hear from you a summary of your recent appearances on the Hill, particularly involving your worldwide testimony.

a. Central America. I believe that you would want to particularly focus on the Central America issues because of the high-level of concern on the Hill.

-- First you may wish to inform Secretary Haig that we now have communications with our station [redacted]

25X1

25X1

-- The Secretary will probably be up to speed on this week's NSC deliberations on Central America, but I have included copies of your presentation as well as some of the material from the meeting for your use.

b. Yellow Rain. Regarding questions on the chemical warfare issue, you will recall that Senator Pell particularly homed in on this during your testimony last week. I have included the Key Judgments from the recently released SNIE on that subject, which Secretary Haig may wish to skim. I also included a copy of [redacted] memo, which informs you of State's plan to orchestrate the public release of the findings of this estimate.

25X1

25X1
Having just
learned of Monday's
briefing
this probably will
not be necessary
except maybe

4. International Terrorism. Secretary Haig continues to be seized with Soviet involvement in international terrorist activities. I am told that he will be prepared to brief you on the results of the recent trip by General Walters and Hugh Montgomery to Europe, where they were apparently investigating this problem. I have included for your background a memo from the DDI Terrorist Task Force, which explains the status of efforts to analyze Soviet involvement. We have a recent report alleging direct Soviet involvement in anti-American terrorism, which is being checked out by the DO. I have also included a NID item from today reporting on Soviet support of Libyan efforts to counter Western intelligence activities. 25X1

[REDACTED]

6. Argentina. Jack Ingley reports concern that Argentina may be producing plutonium clandestinely. Hugh Montgomery sent Secretary Haig a memo on this subject on 3 February. You may wish to inform Secretary Haig that we are taking steps to acquire additional information. 25X1

25X1

[REDACTED]

25X1

8. The agenda for Tuesday's breakfast went through several iterations and a couple of topics were raised but subsequently deleted. I wish to pass them to you, however, for your information. They are not for discussion with Secretary Haig unless he should raise them on his own. 25X1

[REDACTED]

- Libya and West Africa. I have passed you for the weekend a separate book on Libyan activities in various parts of the world. Because of Secretary Haig's interest in Libyan activities in Western Africa this may be raised Tuesday. If so, I have included some of the material from your other book in your FYI package.
- There are a couple of bureaucratic concerns which have risen recently. One deals with State's Office of East-West Trade, which from our perspective does not seem to be "with it."

SECRET

John McMahon passed Admiral Inman a memo on this subject and John expects that the Admiral may attempt to work the problem when he returns. In addition, we have had some problem recently obtaining NODIS traffic from State on items of particular concern to us. State's Executive Secretariat has promised to work it out with us, and John McMahon is going to hold them to it. Therefore, there is no need for us to raise either of these issues with Secretary Haig.

- DDI Rotationals. In response to your mentioning to Secretary Haig several weeks ago that Bob Gates would like to initiate rotational tours for senior DDI analysts, I understand that Secretary Haig will inform you on Tuesday that he supports this and that the mechanics are being worked on.
